

1x2 LED 1206 SMT Module v1.2

A Lego-compatible Crazy Circuits module

Small standalone LED module. This part has no current limiting and so it should be used with only a 3V coin cell, not with USB or 5V!

Bill of Materials

Ref	Qty	Description	Digikey PN
LED1	1	LED GREEN CLEAR 1206 SMD	160-1456-1-ND

Manufacturing Notes

This board must be v-scored. Do not panelize with support tabs or mousebites.
